## About Salesfire

---

Launched in 2017, Salesfire is a Software as a Service company focusing on tools to help online businesses improve their conversion rate and maximise sales. We are constantly looking for talented individuals to expand our team and add to the success of the business.

As we continue to improve and develop our product offering, we are seeking a talented PHP developer who is passionate in building robust and scalable back end services.

We are based in the digital heart of Middlesbrough with excellent links to public transport (bus and train) and easily commutable by car.

## How to apply

---

If you feel you would be a great fit to our team, please send your CV to the email below. Click the link to start your application.
